## OVERVIEW

Stonebridge is an information technology consulting firm focused on helping organizations harness the power of people, processes and technology. Our clients look to us as a strategic partner with a shared commitment to achieving their business objectives and maximizing their business performance.

Stonebridge excels in enabling organizations to derive maximum value from their people, processes and existing technology by seamlessly integrating these assets with the new tools and techniques driving business innovation in new and creative directions. The end result is an enterprise that is more visible, more understandable, more cohesive, and more productive.

Founded in 1995 on a commitment to establishing high-value strategic alliances with our clients, Stonebridge has provided business solutions to hundreds of organizations in all major

industries, representing private, public, government, and non-profit entities.

Our holistic approach to planning, designing, and implementing client business solutions is complemented by our extensive industry-specific business process and technology specializations: Business Intelligence, Portals & ECM, Application Development, Database Services, and Business Service Management.

We have particularly robust knowledge and experience in the Oil & Gas industry. Built on the strength of our proprietary 360° Collaborative Framework, Stonebridge's Oil & Gas Solutions industry practice draws on the skills of our core solution specializations in order to create enterprise solution frameworks, point solutions, and solution accelerators specifically for Oil & Gas companies.

### BUSINESS INTELLIGENCE
